

I-9 Naturalization Verification

As a participant in the Personal Assistance Services Reimbursement for Employment Program (PASREP)

- I understand that all my personal assistants must be of legal working status in the United States.
- If I hire my personal assistants privately, I will have each new employee fill out the I-9 Naturalization form and obtain the proper documentation to support the information on the form.
- I will keep all documentation on hand to present to the IRS or Center for Independent Living, in case any of my employees' working eligibility is in question.
